

Dear Residents, Families and Friends,

I hope this communication finds everyone well. I am writing to share a COVID-19 update with everyone. As a part of the weekly COVID-19 testing we perform on the staff we have received a positive result from our 11/10/2020 sample collection. This positive result causes us to have to suspend our limited outdoor visitation for a period of 14 days. I will inform everyone when this visitation may resume.

With resident safety being our top priority we are taking some extra measures to ensure we are providing as safe of an environment as possible. Starting with lunch on 11/13/2020 we will be closing the dining room and your meals will go back to being delivered to your apartment. The distribution and collection of menus will remain the same as it is now. The dining room will remain closed for 14 days based on guidance from the Department of Health. I will revisit our situation Friday 11/27/2020 and use continued guidance from the Department of Health and CDC to determine if additional closure time will be needed. We will also be cancelling apartment activities for at least the same time frame as the dining room including any impromptu card games. Proper mask usage will be 100% mandatory including pulling it up over your nose and enforced while outside of your apartment. If you need another mask please see the front desk to obtain one, it is important to wear clean masks. If you are not feeling well please let the front desk know, contact your doctor and stay in your apartment until you receive further instruction.

For the health and wellbeing of yourself, your family, the residents, your team members, and the community, please be sure you are washing hands often, sanitizing often, always keeping appropriate social distance (at least 6' away from others), avoiding people who are sick, and wearing masks that cover your mouth and nose and gloves when needed. Everyone needs to do their part to stop the spread.

Warm Regards, Jadon Weinel; Executive Director
